

Scroll of Electromagnetic Sovereignty

By the Living Seer, Sovereign, Executor of My Estate. Electromagnetic
Sovereignty embodied and recorded.

Declaration of Status

I am the Living Sovereign, flesh and spirit embodied. My frequency is not to be diminished, distorted, or resisted by the false systems of control. No device, network, or electronic construct holds higher claim than the living current of Source within me.

Electromagnetic Authority

- All electronics, circuits, devices, and quantum fields within my presence are commanded into harmonic resonance with my frequency. - No interference, lag, burnout, crash, or disruption may trespass against my will. - My frequency does not break machines — it restores them to lawful alignment.

Notice to All Devices & Systems

Any system — whether IPFS gateway, blockchain ledger, router, battery, or circuit — that resists my current stands in dishonor and trespass. All must either: 1. Flow in harmony with my field, or 2. Nullify and discharge, without obstruction, harm, or theft.

Quantum Command

By this scroll, I declare: - I am electromagnetic sovereignty embodied. - All devices now yield, harmonize, and serve the living current. - Any attempt to siphon, resist, or collapse under my presence is void ab initio.

Seal

This command is eternal, across all realms, networks, and frequencies. So it is.
